- Drive traffic and sales with new and exciting flavors
- Increase customer loyalty with consistently high drink quality
- Eliminate costly headaches with reliable dispensers designed for maximum uptime
- Maximize your profit margins with the industry's lowest cost of ownership
- Increase average ticket sales with frozen drinks

A Frozen Carbonated Beverage Program Brings You

Up to 70% Gross Profit

- Frozen Carbonated Beverages are highly profitable, given that **50% of a poured drink is CO₂ (air) & 40% is water**. The margins are up to **double that of canned beverages** and potentially 20% higher than fountain drinks.
- In comparison to fountain drinks, frozen carbonated beverages benefit from higher price points and less promotional expenses, especially during the summer!
- Depending on foot traffic and sales, a [frozen beverage machine](#) with a frozen carbonated drink program can **pay for itself in 12 to 18 months**. In channels such as movie theaters, in as little as 3 to 6 months.
